

STAND FOR CHANGE

MUSIC BY: TAL MORRIS

LYRICS BY: APRIL GRISMAN, GILLIAN GRISMAN, AMBER MORRIS, TAL MORRIS

I wake up in the morning, hoping for a brighter day
As my American dreams start fading, wondering how I'll pay my children's way

We're divided but we need to be united
As a people and a nation

We need solutions for the future that we are paving
And I gotta say, I gotta say. We need a new day,
New day, A new way, I need a change.

*I am a nurse, She has arthritis
She needs good health care, We stand for change*

*I am a Teacher, We need computers
Arts in our schools, I stand for Change*

*I am a father, And a homeowner
On the brink of foreclosure, I stand for change*

*I am a Daughter, concerned about my future,
I have my life to live, I stand for change*

Change, Change, Change

We're Americans,
We're united, Not divided
We Stand for Change

*I am a Christian, I have my faith.
We are all God's children, I stand for change*

*We are fourth graders, Who care about the world,
Wanna stop global warming, We stand for change*

*I am a woman, I have my right to choose
I am for life, I stand for change*

*I am a Veteran, Fought for my country
Now I'm forgotten, I stand for Change*

Change, Change, Change

We're Americans,
We're united, Not divided
We Stand for Change

I believe in a man, A man who cares about our fate
I believe in a plan, A plan to wipe out hate
I believe, I believe, I believe

Hope for a better world, Hope for a better life
Hope for the future, We stand for change

Yes we can! Oh, Yes we can

We Stand For A Change!
